SUMMARY

Through various project experiences, I have developed the ability to develop web services.

Not only the web service, but also application, ML, etc. can be used to implement the services that customers want in reality using computer technology.

Various experiences such as project leader, development team leader, and overseas life contribute to adaptability, communication skills, problem-solving skills, and challenge spirit.

PROJECT EXPERIENCE

OASIS (oasisbot24.com) — Development team Leader

2022 Sep - Present

- Developed Cryptocurrency automatic trading program which is desktop application by using **Electron**.
- Acquired design experience considering **UI, UX by figma**.
